

Building and Land Surveyor

This is a unique opportunity for a Surveyor with serious career ambitions and an entrepreneurial mindset. Our client offers advanced surveying solutions including topographical surveys, measured building surveys, utilities surveys, UAV surveys, laser scan surveys and building information modelling. Clients include leading architects, engineers, construction companies, government authorities, investors and commercial organisations across the United Kingdom.

Essential requirements:

- Proficient in measured building surveying, land and topographical surveying
- A good knowledge of engineering principles and inspection techniques.
- An ability to self-manage and take responsibility for project deliverables.
- Be fully mobile and able to travel throughout the UK with full UK driving licence.

Desired:

- RICS Chartered Surveyor
- Experience of LiDAR, still photography and 4K video, photogrammetric point clouds
- Revit & BIM
- Knowledge of photogrammetry data processing techniques
- CAA Approved with a minimum 50hrs recorded flying time

Responsibilities and tasks include:

- Survey and inspection data processing and reporting
- Providing technical support and project planning
- Use varied surveying equipment, from traditional total stations to modern drone-mounted GPS mapping
- Use data from a varied range of external sources, e.g. aerial photographs, laser scanners, satellite surveys
- Measure land, recording aspects like angles, elevations, and relative distance
- Perform surveys to collect data on man-made and natural features
- Use digital mapping technologies
- Equipment maintenance and software updates e.g. AirData and DJI Assistant

You will be a Member of at least 2 of the following organisations:

The Institution of Civil Engineers ICE / Chartered Institution of Civil Engineering Surveyors ICES / The Royal Institution of Chartered Surveyors RICS / The Chartered Institute of Building CIOB / The Chartered Institution of Building Services Engineers CIBSE.

Salary/package: Salary Band A £17,000 - £25,000K. 40 hours work plus overtime available. Company bonus scheme available.
